Confidence: 95%

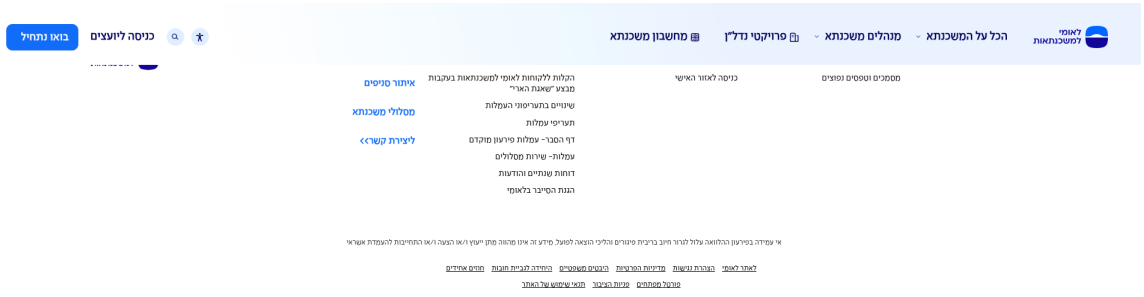

The AI attempted to initiate the mortgage workflow on the Leumi Mortgage website by clicking the 'Let's Start' button. However, after navigating and retrying, the workflow was blocked and could not proceed past the initial steps.

Step-by-Step Walkthrough

1. Homepage Loaded

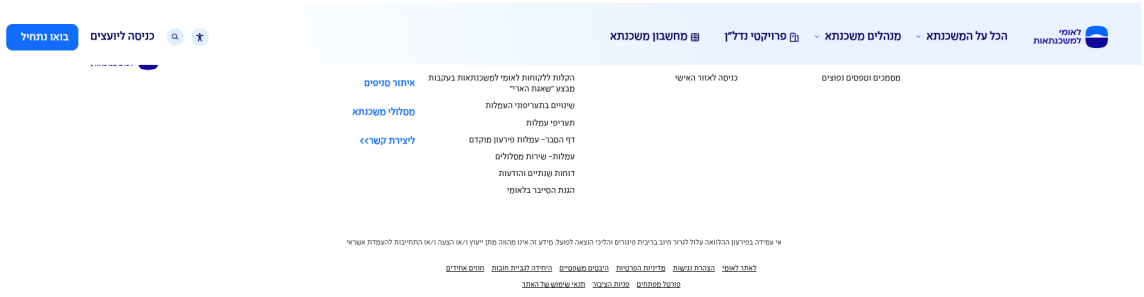

The AI navigates to the Leumi Mortgage homepage, confirming the page has loaded and is ready for interaction.

https://www.mortgage.leumi.co.il

2. Attempt to Start Mortgage Workflow

The AI clicks the 'Let's Start' button to initiate the mortgage workflow, but is unable to proceed further due to a blocker.

Discovered Test Scenarios

#	Scenario	Type	Priority
1	Discovered Workflow: Mortgage Initiation -- Partial	partial_flow	high

Discovered Workflow: Mortgage Initiation -- Partial

Covers the initial steps of starting the mortgage workflow, up to the point where a hard blocker prevented further progress.

A prospective homebuyer visits the Leumi Mortgage portal, attempts to begin the mortgage process by clicking the 'ליחתנ ואוב' (Let's Start) link, encounters an issue, retries the initiation, but is ultimately blocked from proceeding further.

- Use waitForSelector to ensure the 'ליחתנ ואוב' link is visible before clicking.
- Validate navigation by asserting the expected URL after each click.
- Handle potential navigation retries gracefully if the workflow does not proceed as expected.
